We can help you to conduct your own training using an established curriculum. You may license our content to provide professional development using your own trainer(s). You can deliver the training material as is, or adapt it to your needs.

- All content notes and suggested methods of presentation.
- A PowerPoint presentation
- Master copy of all handouts or links to online content (if applicable).
- A list of supplies needed (if applicable).
- Tools for assessment
- Certificate template
- Training record template
- Trainer's booklet including tips, ideas for planning in-service events, and icebreaker games!

A license will grant you unlimited use for the 5 classes you pick from our select licensing catalog for one calendar year.

- Designer has an M.Ed. in adult education and curriculum design and development.
- We sought the input of other child care providers and professionals regarding the class topics and content.
- Meets standards for quality online training.
- Meets [principles for adult learning](#).
- Meets the [quality assurance/training approval standards for many states](#).
- We use a variety of content resources and media when developing the classes.
