Growing Young Gardeners (1 clock hour)

CLASS DESCRIPTION: What could be more appealing for young children than an opportunity to play in the dirt, to be creative and to watch things grow? Gardening with young children can be both fun and educational. Learn the value of gardening activities and find some cool ideas!

LEARNING OBJECTIVES: As a result of this training, participants will be able to:

- Identify the value of gardening activities
- Describe how gardening promotes the learning of science concepts
- List basic tips for gardening with young children
- Choose appropriate plants for young children to grow
- List other activities to help children learn about plants and gardening

WHAT OTHERS ARE SAYING:

I liked the discussions on answering questions asked by children.

– Kelly M., KY

The resources you listed were really helpful.

– Joyce K., OK

I found the explanation and clarification of what true anti-bias means very useful.

– Amanda C., NH

I found all of it very useful. Taking this class taught me so much versus the ECE classes taken in person. This class really made me work and think.

– Jennifer H., NV
